CAUTION! Do not exceed work load limit (WLL) stated on product.

- MOOSE KNUCKLE OFFROAD Lug Line has a FoS (Factor of Safety) of 2:1 which means that its **SLL** (Shock Load Limit) is half of the Minimum Breaking Strength. Do not exceed the shock load limit under any circumstances. Do not exceed a vehicle speed of 5 mph (8.046 kph) when performing any snatch recovery.

- MOOSE KNUCKLE OFFROAD Lug Line **SLL** should NOT exceed 7T or 7.025 tons (14,050 lbs / 6,372.97kgs). Exceeding the shock load limit may cause serious bodily harm, injury or death.

- Use only with shackles, recovery gear and other mounts without sharp edges to avoid damage to rope. Using with gear that has sharp edges greatly decreases the work load limit, break strength and life span of the product.
